| <p>68 (CE)</p> | <p>Is there a space that is at least 30 inches wide and 48 inches deep to allow wheelchair users to park in front of the sink?</p> | <p>This space must extend at least 17 inches under the sink from the front edge, although it can extend up to 19 inches underneath.</p>  <p>The diagram illustrates the required wheelchair clearance under a sink. A hatched rectangular area represents the clear space, with a width of 48 INCHES and a depth of 30 INCHES. To the right of this area is a simplified line drawing of a sink and its cabinet. A dimension line indicates that the clear space must extend at least 17 inches under the sink, with a note '19 INCHES MIN' indicating the maximum allowable extension.</p> |
