

<p>11 (CE)</p>	<p>Is VAN accessible parking provided? (If no, skip to Question 14.)</p>	<p>1 van space for every 6 standard accessible spaces must be provided, but never less than one. For example, if there are 23 total spaces, at least one accessible space is required and it must be large enough (See Question # 5 for dimensions) to accommodate a van. If there are 201 total parking spaces, at least seven accessible spaces would be required and two of those would have to accommodate vans.</p>
